

CRANIO MANDIBULAR AND CERVICAL PHYSIOPATHOLOGY

Thursday February 28, Friday February 29, Saturday March 1, 2008

DR. MARIANO ROCABADO

Module 1 : 40 participants maximum | Sofitel Broadbeach, Qld, Australia

"Dr. Mariano Rocabado of Santiago, Chile brings a very unique and incredibly beneficial structural perspective to the dental continuing education arena. The interrelationship between the oral complex, including the temporomandibular joints and occlusion, with the rest of the body's posture and structural integrity, are so easily understood through the very fluid way he presents his knowledge. Dr. Rocabado is an incredible researcher and is immensely respected throughout the world.

Dr. Rocabado's contributions to the American Academy of Craniofacial Pain over the years have been immense. He is a much sought after speaker and anyone having the opportunity to hear him should take advantage of it every time possible. There is no program in continuing education in dentistry that I can recommend more than those presented by Dr. Rocabado."

Dr Robert Talley, DDS
President of the American Academy of Craniofacial Pain

World renowned Professor Mariano Rocabado is Dean of the Rehabilitation Science Faculty at the University of Andres Bello, Santiago, Chile. He is also Head of Physical Therapy and Physical Medical Rehabilitation at Integramedica, Santiago, Chile and Professor of Head & Neck Biomechanics on the Post Graduate Orthodontic Programme, School of Dentistry, University of Chile.

An expert on Head and Neck Biomechanics, who has written many books on the subject, he is a Founding Member of the Academies of Head, Neck and Facial Pain in Chile, Brazil and Italy.

He is the author of numerous books on Head and Neck Biomechanics and Pain, and Exercise. He is an Honorary Member of the American Academy of Orofacial Pain and the American Academy of Craniofacial Pain. He is a Founding Member and Past President of the Chilean, Brazilian, Italian and Iberian Latin Academies of Craniomandibular Disorders and Facial pain.

He is an Honorary Member of the Argentinean Association of Physiatry and Kinesiology, the Colombian Physical Therapy Association, and the Chilean Orthodontic Society. He is a member of the American Academy of Orthopaedic Manual Therapy and Patron of the Norwegian Manual Therapy Group, Australia.

He is an editorial board member of Craniomandibular Practice Journal, Cranio and Orthopaedic and Manual Therapy.

DAY 1

Concept of Craniovertebral, craniomandibular functional unit

Importance of Physiological Curvatures of the Spine in the Maintenance of Head Posture in Space and in Relation to the Rest of the Body

Lateral Cephalometric Analysis

Influence of Head and Neck Dynamics in Mandibular Function and Dysfunction

Relation between Craniovertebral Joints and Cephalalgias

Suboccipital Triangle

Practical Hands On

DAY 2

Frontal Cephalometric Analysis

Functional Anatomy and Biomechanics of the Synovial

Temporomandibular joints

The Synovial TMJ PAIN MAP

TMJ, Soft Tissue Sensitivity as it Relates to Joint Pathology

Synovial TMJ, assesment

Practical Hands On

DAY 3

Review. Day 2

Mandibular Dynamics

Osteokinematic and Arthrokinematic Assesment

Practical Hands On

Myogenous Craniomandibular and Inframandibular Syndromes.

Practical Hands On

Approach to Treatment:

Mandibular Rest Position

How to Prepare Joints for Treatment of Intracapsular Disc Pathology

Long Axis, Lateral and Medial Distractions

Rocabado Roll Back Technique.

Basic Approach To:

Cranio-cervical and Mandibular Normalization

Patient Care

DETAILS:

Dates: 28, 29 Feb, 1st March 2008

Times: 9am – 5pm all 3 days

Venue: Sofitel Broadbeach, 81 Surf Pde, Broadbeach, Qld, tel (07)5592 2250

Cost: \$2950 inc. GST (individual)
