Comprehensive TMD & Sleep Studies Management Diagnose & Treat TM Dysfunction

26-27 Aug, 14-15 Oct, 18-19 Nov 2011

Dr. Steven Olmos, DDS, DABCP, DABDSM, DACSDD, DAAPM, FAAOP, FAACP, FICCMO, FADI, FIAO

Dr. Steven Olmos has been in private practice for over 28 years with the last 19 years devoted to research and treatment of TMD, Craniofacial Pain and Sleep Disordered Breathing. He obtained his DDS from USC School of Dentistry and has continued his education with over 4,500 hours dedicated to research and treatment in the field of mandibular orthopedic dysfunction and sleep disordered breathing. Dr. Olmos is the founder of TMJ & Sleep Therapy Centre International with 10 licensed Centres worldwide dedicated exclusively to the treatment of these disorders. Dr. Olmos is an adjunct professor at the University of Tennessee School of Dentistry and has been honored for his contributions to dentistry with Fellowship in the Academy of Dentistry International and the 2008 AACP Haden-Stack Award for his contributions to education in the field of TMD and Craniofacial Pain.

Dr. Olmos is an international lecturer and has developed courses teaching his protocols for the identification, diagnosis and treatment of TMD, Craniofacial Pain and Sleep Disordered Breathing. He regularly teaches these courses in Canada, Australia and the U.S. His protocols are utilized in the Craniofacial Pain & Sleep Center at the University of Tennessee College of Dentistry.

Comprehensive TMD & Sleep Studies Management Diagnose & Treat TM Dysfunction

26-27 Aug, 14-15 Oct, 18-19 Nov 2011

3-SESSION MINI-RESIDENCY

UNDERSTAND

The steps to expand your diagnostic skills

LEARN

The protocols for reproducible results

ACHIEVE

Treatment success in your practice

The TMD & Sleep Education Program of Dr. Steven Olmos, DDS, is proud of its reputation as being a leader in training for the dental profession in the study and treatment of TMD and related sleep disorders. This comprehensive 6 day (3 Session) course provides an integrated approach to care that includes more in-depth diagnosis, the latest treatment technologies and training for all levels of the dentist's practice. A stable TMJ should be the first obtained before restorative, orthodontic or prosthetic treatment. Upon completion of this course, you will be able to confidently diagnose and treat TM Dysfunction based on meticulously researched scientific evidence and combined with a practical hands-on approach.
